

Chorzów, July 3rd, 2020

REFERENCES

Alstom Konstal S.A. hereby certifies that since 1 December 2016 it has been cooperating with the company PROFESSIONAL based in Opole, carrying out international projects of building modern railways: Metro Rijad, Metro Dubaj, Coradia, ICNG.

Within the framework of the above projects the company provides the following services:

- quality control
- non-destructive testing
- radiographic surveys RT2, RT3
- engineering services
- supervision of production and welders
- welding
- assembly and electromechanical assemblies
- locksmith services

The company PROFESSIONAL provides services in a continuous manner, on time and in accordance with the order, delegating the best qualified specialists, which affects the high quality of services and our projects.

The company PROFESSIONAL has a large organizational and financial potential, which it successfully uses in the implementation of projects not only in our company headquarters in Chorzów, but also directly at our customers in various countries around the world: Saudi Arabia, United Arab Emirates, France, Germany, Italy, the Netherlands.

Having the above in mind, we recommend the company PROFESSIONAL as a trustworthy partner in the implementation of difficult and large projects.

With regards,

ALSTOM KONSTAL S.A.
